 - University Legal Services

Program Purpose Statements

The PPS is designed to inform students of several items:

1. Enrollment Eligibility – what credential, if any, the student must have to enroll;
2. Educational Preparation – what the program prepares the student to do;
3. Field Experience Requirements – what the student must do in addition to didactic coursework; and
4. Licensure/Exam Preparation – what type of professional license or certification the student is prepared to apply for upon completion of the program.

The Bachelor of Science in Education/Elementary Education is an undergraduate degree program intended to prepare students with no prior teaching experience for initial teacher licensure. The program is designed for students who want to become elementary school teachers and includes a clinical component requiring field experiences and student teaching above and beyond program coursework. As licensure requirements may vary by state, it is the student's responsibility to ascertain and meet licensure requirements in any state in which the student desires to practice and to contact the applicable state educator licensure agency to verify current requirements to become a licensed teacher. There may be additional qualifications and/or disqualifications applicable in order to work as a teacher with any local, state or federal entity.

Looking Ahead...

§ 668.43 Institutional information.

(a) Institutional information that the institution must make readily available to enrolled and prospective students under this subpart includes, but is not limited to—

* * *

(5) The academic program of the institution, including—

(v) If an educational program is designed to meet educational requirements for a specific professional license or certification that is required for employment in an occupation, or is advertised as meeting such requirements, information regarding whether completion of that program would be sufficient to meet licensure requirements in a State for that occupation, including—

(A) A list of all States for which the institution has determined that its curriculum meets the State educational requirements for licensure or certification;

(B) A list of all States for which the institution has determined that its curriculum does not meet the State educational requirements for licensure or certification; and

(C) A list of all States for which the institution has not made a determination that its curriculum meets the State educational requirements for licensure or certification; and

NOTHING IN THIS PRESENTATION SHOULD
BE CONSTRUED AS LEGAL ADVICE
