

Date: 07/06/22

Student ID: 00XXXXXX

Jane Smith,

You are receiving this notice because you are enrolled in a Utah Tech University (UT) program of study that leads to professional licensure and therefore, may require professional licensure to be earned.

UT is required, by federal law, to notify you directly of the professional licensure determination status (meets, does not meet or undetermined) with respect to your current program of study and the state you are physically taking classes in. Your state location is determined at the time of your initial UT enrollment (permanent location) and any changes you make to your student profile (local location). If the information we have regarding your program of study or physical location is no longer accurate, please update your personal profile in My UT. Here is a summary of these states:

Program of Study: BSN-NURS-T

Local State: Utah

Determination Status: Meets

Permanent State: Idaho

Determination Status: Meets

For your reference, here is a summary of the six states that border Utah:

Colorado: Meets

New Mexico: Meets

Arizona: Meets

Nevada: Meets

Idaho: Meets

Wyoming: Meets

Prospective and current students should keep in mind that professional licensure requirements vary by state and that relocating during the course of a program to another state could impact your eligibility for licensure and requirements for reciprocity. Please review state educational requirements for professional licensure and state licensing board contact information at <https://academics.utahtech.edu/state-authorization/>.

Utah Tech University

Note: UT makes every effort to ensure professional licensure information is current, however, state requirements may change. It is highly recommended that you contact the appropriate licensing agency in the state where you are located and/or intend to practice to confirm requirements.

State contact: [Nursing Smart Sheet](#)
